Subject of letter: Recommendation based on work for  
Ardagh Project in La Ciotat, France

Ardagh Metal Beverage Europe GmbH with its registered office in Bonn at Georg-von-Boeselager-Straße 25 as an investor in the project new production line at the Ardagh France La Ciotat factory, is confirm participation ABM-Industry SP z o.o. performing the function of electrical project and investment supervision over the mentioned project. A wide range of activities undertaken by ABM-Industry Sp z o.o. included:

- Schedule planning and analysis of project documentation
- Planning and supervision procedures for safe work performance
- Preparation of project specifications and standards in accordance with the Ardagh Group guidelines and standards in accordance with EN-ISO standards,
- Selection of contractors with the information exchange process
- Designing machine automation PLC control systems with safety systems
- Investment services consisting in investor supervision of the electrical and construction industries as like: low-voltage electricity distribution, production network with communication protocol, MES system commissioning and design, electrical installation and commissioning of machines.
- Project cost control
- Acceptance of machines for use along with verification of documentation and CE compliance

The works were carried out in the period from 01/10/2021 to 31/05/2023

During the implementation of the investment, ABM-Industry showed great commitment to quality control of works and the contract schedule. This made it possible to achieve the planned economic and operational effects. We recommend cooperation with ABM-Industry Sp. z o. o. as a reliable partner in business.

Best regards

Wojciech Pajor
